AIRBIZ ↗

Airport Planner (CAD) - Melbourne or Sydney

The Opportunity

Airbiz is a world leading specialist aviation consultancy, focusing on strategic airport planning, with established offices in Australia, Canada, Europe and New Zealand. We are currently looking for a qualified and enthusiastic candidate with CAD design skills with an airport, engineering or architectural background to join our team in planning airport, airside and terminal infrastructure. Experience with AutoCAD is preferred, and skills in Excel, writing and presentation are highly desirable. The position offered is based in either Melbourne or Sydney, working in collaboration with Airbiz consultants across the globe on airport projects.

This is an excellent opportunity if you are looking for a career in aviation or looking to develop your existing aviation design expertise with an amazing company and team of colleagues. You can look forward to a variety of exciting projects contributing to both the immediate development needs of an airport and to long range master planning globally. The successful applicant will show ingenuity and will have the opportunity to learn from some of the most experienced and innovative airport planners in the world, while working alongside leading airports and airlines.

Requirements

You will be an enthusiastic, skilled and self-motivated team member who learns quickly, is able to work independently, will be accountable for performance and is willing to take on responsibilities within a high energy multi-disciplinary multi-office team environment working across a range of time zones. If you can demonstrate the following attributes, we would like to hear from you.

- Relevant tertiary qualifications i.e. airport planning, engineering, architecture or transport
- AutoCAD/MicroStation expertise in a design role
- Excellent verbal, writing and presentation skills
- Working knowledge of graphic tools such as MSOffice, Adobe CS and 3D software (e.g. SketchUp) is desirable
- Ability to travel as needed
- Experience in analysis and Excel-type systems is desirable
- Experience in airside planning at airports (airfield and aprons) is desirable
- Experience in terminal planning at airports is desirable
- Experience in CAD 3D (i.e. Autodesk design suite - Infraworks, Revit) is desirable

Your application and CV must be sent to jobs@airbiz.aero with the words " Airport Planner (CAD) – MELBOURNE" or Airport Planner (CAD) – SYDNEY" in the subject line. Your application should include a brief description of what motivates you and an outline of your relevant skills, strengths and your areas of interest and future development.

Only individuals with the right to work permanently in Australia may apply for this position.

We are an equal opportunities employer with a friendly and flexible working environment in locations across the world. Please visit our website for more information on our company: www.airbiz.aero
