The Opportunity

We are currently seeking an Aviation Analyst / Modeller and will consider applications from both graduates and experienced candidates. The position can be based in Montreal, Vancouver, Melbourne or Sydney. The successful candidate will use their numerate and analytical skills working in collaboration with other Airbiz consultants on major airport projects throughout the world.

Essential Requirements

The ideal candidate:

- Has a tertiary qualification in computer science, engineering, mathematics, or similar numerate/analytical disciplines.
- Has excellent numerate and analytical skills and can use these skills to solve complex problems.
- Can use Microsoft Excel at an advanced level.
- Is self-motivated, requiring minimal supervision, accountable and willing to take on responsibilities within a team environment.
- Can demonstrate commitment and ability to provide quality work and meet agreed deadlines.
- Has excellent written and oral presentation skills.
- Has exemplary time management, organizational skills to prioritize work and coordinate tight deadlines.

- Has strong research skills and ability to collate and concisely communicate key findings in written reports, slide decks, and in-person meeting formats.
- Has the ability to participate in and contribute to meetings to develop and implement successful project solutions by helping to prepare materials, supporting schedule coordination, and developing meeting minutes and summaries.

Beneficial Requirements

The ideal candidate could also have:

- Experience using data visualization tools such as GIS, Tableau or similar software.
- Airport modelling and simulation experience using such products as CAST, ARCport, TAAM, SIMMOD or similar products.
- The ability to program in SQL, Python and/or VBA.
- Experience working in a project-based environment with teams and/or stakeholders.
- Experience using airport planning tools such as Autodesk, Sketchup, AviPLAN, Lumion.

Location & Compensation

- This position is to be based in either our Vancouver, Montreal, Sydney or Melbourne office.
- Periodic business travel may be required.
- We compensate competitively, commensurate with experience and qualifications and provide a benefits package, annual salary bonus, and flexible work arrangements.

Mentorship and Professional Development

- We are committed to helping you grow as part of a team and will work with you to develop a professional development and mentorship plan. As a small firm, we offer a unique opportunity to work directly with senior staff, including principals and senior managers, for meaningful career development and learning outcomes.

Your application

Your application and CV should be forwarded to jobs@airbiz.aero with the words "Aviation Analyst Modeller" in the subject line. Your application should address how you meet the essential requirements and any of the desirable requirements of the position.

Only applications from individuals with the right to work permanently in Canada or Australia will be consider for this position.
